Sub: Intimation regarding status of Kudrekonda Block, Honnali Taluk, Davangere district, Karnataka State.

Ref.: F. No. 23/424/2024-NMET/529 dated 27th February 2024

Sir,

This is to inform you of the current status of the Kudrekonda Block, situated in Honnali Taluk, Davangere District, Karnataka, which has been allocated to MECL for G3-level preliminary exploration (Phase I) for gold through geophysical surveys.

In accordance with the decision taken during the 55th meeting of the State Geological Programme Board (SGPB) of Karnataka, Mineral Exploration Corporation Limited (MECL) was entrusted with the exploration of the Kudrekonda Block. Subsequently, the block was formally allocated to MECL, as communicated via letter F. No. 23/424/2024-NMET/529 dated 27th February 2024, with a stipulated timeline up to 26th February 2025. The block was approved during the 33rd meeting of the Executive Committee held on 19th February 2024.

Following receipt of the Office Memorandum, MECL promptly deployed a team of geologists and geophysicists to initiate preliminary field preparations and establish a base camp. In line with the approved plan, the geophysical survey commenced on 12th May 2024 after obtaining all necessary permissions. The Time Domain Electromagnetic (TDEM) and Magnetotelluric (MT) surveys, geological mapping on a 1:2000 scale covering 2.74 sq. km, and surface sampling were completed as per the approved scope of work.

However, the Deep Induced Polarization (IP) survey could not be initiated due to strong objections raised by local villagers on 25th August 2024. Despite continuous engagement with local authorities and community leaders, the resistance could not be resolved. As a result, MECL submitted a formal request to the Secretary, Ministry of Mines and Geology, Government of Karnataka, seeking assistance to facilitate the successful execution of the exploration programme (Annexure-I).

The issue, along with the overall progress, was subsequently discussed during the 73rd meeting of the Technical cum Cost Committee-I (TCC-I), held on 30th and 31st January 2025. Following deliberations, the TCC approved an extension of the project timeline up to 26th May 2025.

Further efforts were made by the MECL team in coordination with officials from the State DMG, District Collector, Assistant Commissioner, and Tahsildar. Multiple rounds of discussions and public meetings were held to address community concerns. Nevertheless, objections persisted, prompting the District Collector to advise a two-month deferment of the survey to allow time for further dialogue with the local population.

MECL subsequently re-approached the District Collector and Assistant Commissioner to facilitate renewed engagement with the community. The Assistant Commissioner advised the MECL team to wait until the first week of March 2025 while efforts were made through the Local Panchayat and local minister to mediate. Unfortunately, these efforts did not yield a positive outcome.

In parallel, MECL sought intervention from the Deputy Director (Planning), DMG Karnataka, who took the initiative to approach the District Collector, Davangere, and proposed organizing a public awareness programme in Kudrekonda Village. The Collector responded positively, and the awareness programme was scheduled for 8th April 2025.

The public awareness meeting was held at Kudrekonda Village at 11:00 AM on 8th April 2025, chaired by the Assistant Commissioner, Honnali. It was attended by the Tahsildar, Nymathi, Senior Geologist – Davangere Region (DMG Karnataka), MECL officials, members of the local community, and the Local Panchayat. During the meeting, the Assistant Commissioner clarified that the project was limited to research and exploration and not related to mining operations. However, the local community remained unconvinced and strongly objected, asserting that the survey was a prelude to gold mining. The situation escalated, and the gathering became hostile. The community issued a stern warning, stating that anyone entering the village for survey work would do so at their own risk and demanded immediate cessation of the meeting. As a result, the awareness programme had to be prematurely concluded without success.

A detailed chronology of the liaison efforts made by MECL is enclosed as Annexure-II. Additionally, news clippings from the local press are attached as Annexure-III.

Given the prevailing hostility and the potential risk to personnel safety, the Assistant Commissioner, Tahsildar, and Senior Geologist (DMG Karnataka) have advised MECL to consider surrendering the block, citing the possibility of life-threatening incidents during further fieldwork.

In view of the above, the exploration work in the Kudrekonda Block is currently on hold, and no further activity can be carried out under the present circumstances. This is submitted for your kind information and necessary action.

Thanking you,

Yours sincerely,

P. Ravindran

Date-16th September, 2024

Dear Sir,

MECL, a premier mineral exploration agency under the Ministry of Mines, Government of India, has been providing mineral exploration and consultancy services for over five decades. Our expertise extends to a broad range of minerals, including base metals, critical minerals and industrial minerals, with significant exploration activities across Karnataka.

Following the recommendations of the 55th State Geological Programming Board (SGPB) meeting of Karnataka, MECL proposed and received approval for "Preliminary Exploration (G-3 Phase-I) for gold in the Kudrekonda Block by Geophysical Survey". This approval was granted by the National Mineral Exploration Trust (NMET) via Letter No. F.No.23/424/2024-NMET/529, dated 27th February 2024. The Kudrekonda Block, situated in the Honnali taluk of Devanagere District, is part of the Honnali Gold Field (HGF) within the Shimoga Schist Belt, an area historically renowned for its gold deposits.

In line with the approved work plan, MECL mobilized its geophysical team on 5th May 2024, with the survey commencing on 12th May 2024 following the acquisition of all necessary permissions. However, on 25th August 2024, objections were raised by local villagers. Despite our regular pursuance and multiple discussions with local authorities, the opposition persists to any further survey activity in the area. The District Collector has advised a two-month postponement of the survey to facilitate further dialogue with the community.

In light of the strategic importance of this mineral exploration endeavour, it is requested your intervention to facilitate the continuation and successful completion of the geophysical survey in the Kudrekonda Block.

Thanking you

Yours sincerely,

 16/09/24

Annexure- II

Chronological events of Liaison work for Kudrekonda Block, Karnataka done by MECL team:

KUDREKONDA BLOCK LIAISON EVENTS DETAILS		
SL.No	DATE	EVENT
1	27th February 2024	NMET approved the Preliminary Exploration (G3 stage) Phase-I for the Kudrekonda Block under NMET funding (Letter No. F.No.23/424/2024-NMET/529).
2	28th April 2024	MECL sought permission from the District Collector to conduct the geophysical survey (Letter No. MECL/GP/FIL/NMET-KUD/24-25/05).
3	5th May 2024	MECL Geophysical team mobilized to Kudrekonda Block.
4	10th May 2024	Intimation about the survey sent to Superintendent of Police, Davanagere.
5	11th May 2024	Intimation sent to Tahsildar, Nyamati, and Incharge of Nyamati Police Station.
6	12th May 2024	Survey commenced.
7	24th August 2024	Survey progressed smoothly until this date.
8	25th August 2024	Villagers raised objections to the survey.
9	27th August 2024	A meeting was held with the VRO of Kudrekonda and villagers, but no permission was granted for the survey.
10	29th August 2024	Another meeting with officials from DMG Karnataka, Tahsildar and MECL team was held, but villagers submitted a representation refusing the survey.
11	30th August 2024	Mrs. Rashmi (Sr. Geologist), DMG- Karnataka and ABSS Rama Krishna, Manager (Geophysics), MECL met with the District Collector to brief him on the situation.
12	31st August 2024	The District Collector scheduled a meeting at Honnali and assured assistance from the Assistant Commissioner (AC).
13	3rd September 2024	A meeting led by the AC, with Tahsildar, MECL team, and villagers, was held. Villagers refused to allow the survey to continue.
14	4th September 2024	ABSS Rama Krishna, Manager (Geophysics), MECL met the District Collector again, who advised postponing the survey for two months to further engage with the villagers
15	7th February 2025	Mrs. Rashmi (Sr. Geologist), DMG- Karnataka and Sh. Kashung Chinaoshang, Assistant Manager (Geology), MECL met with the District Collector to brief him on the situation. District Collector advice to meet Assistant Commissioner of Honnali.
16	8th February 2025	Sh. Kashung Chinaoshang, Assistant Manager (Geology), MECL met with the Assistant Commissioner & Tahsildar of Honnali and discuss the current situation of the local objection for geophysical survey. During the discussion the Assistant Commissioner request MECL to give a time till 1st week of March, in a meantime the Assistant Commissioner & Tahsildar will approached to the local Panchayat & Minister for convincing with the local villagers.
17	4th April 2025	Shri. Kashung Chinaoshang, Assistant Manager (Geology), MECL approached to the Shri. H.P.Harish, Deputy Director (Planning), DMG- Karnataka and brief about the status of Kudrekonda Block. The Deputy Director (Planning), DMG- karnataka make a phone call to District Collector, Davangere & Senior Geologist, Davangere Region, DMG- Karnataka, to initiate for organizing a public awareness programme and resolved the issues immediately.

Annexure- II

18	5th April 2025	The District Collector had instructed to the Assistant Commissioner of Honnali to organized a public awareness programme on 8th April 2025, at Kudrekonda Village without any further delay, the same was convey to the MECL team by the Assistant Commissioner.
19	7th April 2025	Kashung Chinaoshang, Assistant Manager (Geology), MECL attend the Assistant Commissioner office Honnali met with the Assistant Commissioner and discuss about a public awareness programme which was scheduled on 8th April 2025, 10:00am at Kudrekonda Village along with Assistant Commissioner-Honnali, Tahsildar-Nymathi, Senior Geologist-Davangere Region, DMG-Karnataka & MECL, for convincing with the local villagers to allow them to execute the geophysical survey at Kudrekonda Block. The intimation has given by MECL to the Senior Geologist-Davangere Region, DMG-Karnataka for the said programme to be available.
20	8th April 2025	The public awareness programme was organised at Kudrekonda Village chaired by the Assistant Commissioner of Honnali. The attendees of the public awareness meeting were Shri. Abishek V- Assistant Commissioner, Honnali, Shri. Govindappa H B-Tahsildar Nymathi, Smt. Rashmi-Senior Geologist, Shri. Shiva Prasad-Geologist, Davangere Division, DMG Karnataka and Shri. Kashung Chinaoshang- Assistant Manager (Geology) MECL and the Kudrekonda Villagers. The Assistant Commissioner briefed the local people about the MECL company exploration project stating that it is a type of research work that was carried out by the Central Government company, under the Ministry of Mines Government of India. This type of exploration work is executing all over India as well as in different parts of karnataka State and the main objective of this survey work is to study what type of soils, minerals and the ground water profile below the surface by using different types of modern technologies such as geophysical survey, drone survey and soil/rock sampling. The MECL company is a CPSE under the Ministry of Mines Government of India and this company will never execute any survey work without the state government and local consent. The company will take prior consent from the State Govt. & local people before executing any survey work in the area. The Assistant Commissioner explained that MECL company will not acquire any land or property from the villagers to execute this exploration/survey work and no mining activities will be carried out by MECL, their main work is to explore/survey and provide the field report to the Central Government & State Government. Therefore, on behalf of the Karnataka State Government I Shri. Abishek V- Assistant Commissioner, Honnali assured that this exploration/survey work will never hamper or acquire any private land or properties in Kudrekonda Village, hence, kindly allowed them to execute the exploration/Survey work in Kudrekonda Village. The villagers strongly opposed the statement given by the Assistant Commissioner stating that everyone in the Village is aware of the area that found Gold and the government is planning to execute for Gold Mining. The local people told that recently in the local newspaper it was published that Gold is available in the area. The local community were arrogant and the situation is escalating and starts agitating to vacate the meeting venue

Annexure- II

		<p>immediately stating that they don't want anything from the government they want only their land. The local villagers sternly warn that no one can enter their village to carry out any exploration or survey work within their village jurisdiction and those who enter to this village will be killed, therefore the team left the venue immediately. The Assistant Commissioner has recommended to MECL that if the exploration work can be executed within 1 day then he can provide the State Police force to execute the exploration work. But the exploration work is a long process which will take more than 2/3 months; therefore, he advises the MECL to wind up the exploration work due to the prevailing conditions of the local community.</p>
21	8th April 2025	The public awareness programme report was updated to the District Magistrate, Davanagere by the MECL Team

ಗಣಿ ಸರ್ವೆ ರದ್ದುಪಡಿಸುವಂತೆ ಸ್ಥಳೀಯರ ಆಗ್ರಹ
ಸಿಬ್ಬಂದಿ ವಾಪಸ್ ಕಳುಹಿಸಿದ ಗ್ರಾಮಸ್ಥರು

Assist in survey work: A.C. request

Sub-Divisional Officer V. Abhishek discussed with the villagers in Kudrekonda village of Nyamati taluk on Tuesday.

Radio news

Kudrekonda +
Kudrekonda, (Nyamati):

Deputy
Divisional

Officer V. Abhishek said that the villagers should cooperate with the survey work being done by the Central Department of Earth Sciences in the lands of Yaranagalu and Salabalu villages.

He visited the village on Tuesday and said, 'Survey work is being done in the entire country by Survey of India. Survey and record soil wealth, mineral wealth, water source wealth, forests in India

Intended to do. He assured the villagers that this will be few useful in the next days.

"There is no information about the exact purpose of the survey. In the name of survey, they have caused loss by wandering in the lands. The villagers appealed to the Sub-Divisional Commissioner that the lands of the village should not be surveyed for any reason.

Nyamati Tehsildar H. B. Govindappa, Revenue Department Yakurattha and Yaranagalu, Kudrekonda Surahonne villagers were there.

The villagers sent back the local demand staff to cancel the mine survey

Radio news

Kudrekonda (Nyamati): To cancel the survey conducted by the Central Department of Land Science in the lands of Kudrekonda, Yaranagalu, Salabalu village within the village limits of the three villages. The leaders appealed to the head of the department on Thursday.

The Department of Earth Sciences has already completed the survey work twice in the wake of the discovery of gold deposits in the past. Mineral Exploration and Consultancy Limited based in Maharashtra has started survey work from Wednesday to find resources. Locals speculated that the entire village would be brought together in connection with mining

The villagers submitted a petition to the authorities on Thursday demanding that the survey be stopped and the survey was blocked.

There are more people belonging to Scheduled Castes, Scheduled Classes and Backward Classes in the village and they are living on agriculture. Do not survey for any reason. Permission for any industries, Mines and Earth Science Department in coming days

The villagers have appealed to the concerned department and Tehsildar that it should not be given.

Davangere Senior Geoscientist C.R. Rashmi, Nyamati Zone Scientist Chaitra, Tehsildar H.B.Govindappa, Sub-Inspector B.L. Jayappanayake visited.

nnumerable rate; Fish is costing like hot cakes
