

ANNEXURE VI/1

STATEMENT SHOWING PEER REVIEWER'S COMMENT ON THE DRAFT GEOLOGICAL REPORT OF JAHARITOLA AND MUNDATOLA LIMESTONE BLOCKS (G3), SUNDARGARH DISTRICT, ODISHA

SL No	Peer Reviewer's Comments	Response
01	It is mentioned that during geological mapping 40 nos. of samples as channel were collected from exposed. The detail about channel sampling, channel dimensions, and a few field photographs of the channel may be added. Probably, chipping was done along the channels.	Most of the bed rock samples are in the form of channels which is 1-2m in length. The same has been shown in the geological map (Plate IV). Field photographs are provided in the chapter 7.
02	Several references are cited in the text but are not listed in the reference section. All these references may be added in the final report.	As observed references are incorporated in the reference section.
