Legend

-  Nagavanda Boundary Corners
-  Nagavanda Block Boundary
-  Forest Boundary
-  Settlement
-  Dugwell
-  Old Pit/Dump
-  Structure
-  Streams
- Cu in Stream Sediment Sample**
 -  < 90.48 ppm
 -  90.48 - 137.48 ppm
 -  >137.48 ppm
 -  Borewell drilled for Irrigation (2024)

Lithology

- | | | |
|---|---|-----------------------|
|  Laterite |  | Recent Formation |
|  Quartz Vein |  | Ranibennur Formation |
|  Metabasalt |  | Medur Formation |
|  Greywacke -Argillite |  | |
|  Andesite |  | |
|  Talc - Trimollite Schist |  | |
|  Metabasalt |  | Joldhal Formation |
|  Carbonacious Phyllite |  | |
|  Ferrous Phyllite |  | |
|  BFC/MN ore |  | |
|  BFC |  | |
|  Metabasalt |  | Jhandimatti Formation |
|  Quartzite |  | |
|  Chloirte Schist |  | |
